

MECHANICAL ENGINEERING PORTFOLIO

About me

Fourth year mechanical engineering student passionate about robotics and automation, focused on translating theoretical kinematics into functional, manufacturable systems.

Education & Skills

- B.S. Mechanical Engineering, URJC Móstoles
- Expected graduation: 2027
- Key coursework: Machine Design, Manufacturing Processes, Engineering Graphics, Mechanics of Materials, Materials Science, Thermodynamics, Engineering Projects
- CAD & Simulation: Autodesk Fusion 360, SolidWorks
- Programming & Control: Arduino, Matlab
- Languages: Spanish (Native), English (Advanced C1)
